EXAMINER'S AMENDMENT

1. The Restriction requirement in the previous Office Action mailed 3/29/2004 has been withdrawn in view of Applicant's amendments filed 4/28/2004.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the Abstract,

lines 5-6 have been replaced in their entirety by the following:

-- thereof. The object of this invention can be achieved by a biaxially --.

In the Specification,

5. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest a biaxially oriented polyester film having the recited dimensional change in the transverse direction under the specified conditions (claim 1), or methods of making such a film (claims 11-13), in view of the showing in the specification with respect to criticality and improved performance. Specifically, JP 63-170018 and JP 01-312727 and US 4,985,537 (cited in the International Search Report) fail to teach or suggest films having the specified dimensional change values.
